

Management Committee

Thomas Riordan is responsible for managing Oppenheimer's Information Technology department; specifically internal application development, infrastructure, cybersecurity and the evaluation and implementation of new technology products. He also serves as a Member of Oppenheimer's Management Committee, the Risk Management Committee, the Cybersecurity Committee, the New Product Committee and as the chair of the Firm's Business Continuity Planning Committee.

Tom has extensive experience in the financial services industry, especially in the areas of Operations and Clearing, Capital Markets and Information Technology. He has served Oppenheimer in both line and technology roles. In 2008, he was named Managing Director and Chief Information Officer, a role he had previously held when he worked at CIBC World Markets.
